# BOROZINC

NASAA ORGANIC CERTIFIED

## WHY APPLY BOROZINC ?

Borozinc is a foliar fertiliser that associates Boron and Zinc in a unique acid pH formulation.

Certified by NASAA as an input for organic agriculture. The unique acid pH formulation improves the quality of the mixture (stable, buffered, acid) and improves the quality of the foliar spray giving a better attraction with the leaf cuticle for rapid and effective assimilation.

## CROP RECOMMENDATIONS

**Fruit trees (stone fruits, pip fruits), Grapes, Olives, Field crops (beetroot, canola, sunflowers, etc.).**

## RATE

**2-4 kg/ha by foliar application**

Precision  
technologies

**Boron (B): 130 g/kg**  
**Zinc (Zn): 41 g/kg**
